**Class description:**

With this project you can expand your piecing horizons and discover oceans of design possibilities using only a few basic units. With Wendy's unique "TRIMplate<sup>®</sup>" piecing method, you can make Snail's Trails, Diamonds, Triangle-in-a-Square blocks, and more – all with precision and ease. This technique uses no paper piecing, no templates and there are no bias edges on the outside edges of the blocks. If you can sew a quarter inch seam and you are not afraid of rotary cutting, you have the skills required for this class. Wendy is known for her piecing tips and tricks, so you're likely to pick up an idea or two, and sharpen your piecing skills on your Alaskan journey at sea.

**Supply List**

This class will have a pre-cut kit including all fabrics and thread needed to complete the project except batting and backing. TRIMplates<sup>®</sup> will be available for the students to use in class.

**Additional supplies needed are:** Basic Sewing Supplies, a rotary cutter with a new blade and scissors.
